

IEEE International magnetic conference (Intermag 2015, Beijing)

IEEE Magnetic Society

China National Convention Center (CNCC)

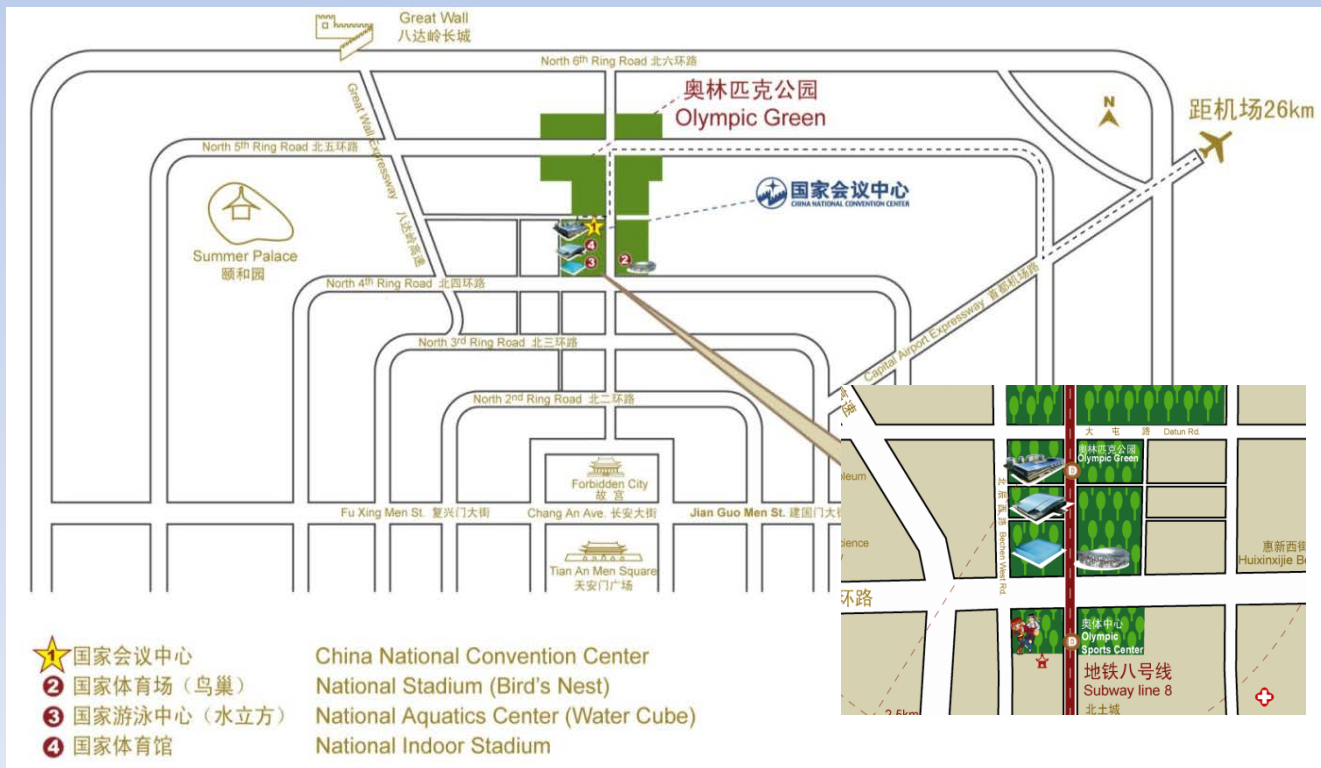

Air and Local Transportation

- Beijing Capital International Airport is currently the 2nd largest airport in the world (2010), has direct flights to almost all major cities in the world, no matter from US, Asian, Europe, Pan-Pacific, etc.
- Very convenient low cost taxi and subway (train) from airport to city and conference hotel. The public transportation is very convenient and the cost is very low. There are more than 1000 different bus lines, 15 different subways and 80k Taxi that will allow people go to anywhere they need.
- There are many hotels at different scales based on different budget needs of each person.

Transportation to Conference Center

- Located at the fourth ring road in the northern part of Beijing
- 26km from Beijing Capital International Airport, travel time of 25 minutes via the Expressway
- The City Subway network has a station on Line 8 which is directly linked via underground walkway to the CNCC
- Easily reach the surrounding areas and key touristic attractions

China National Convention Center

- Located to the North side of Beijing and in the heart of the Olympic Green development
- Adjacent to Bird Nest, Water Cube and the National Indoor Stadium – key icon venues during the Olympic Games of 2008
- Used as the International Broadcasting Center (IBC) and provided facilities for Fencing and Pistol Shooting competitions during the Games
- Refurbished and re-opened in 2009 with purpose built facilities for international congresses, conventions and exhibitions
