

International Magnetism Conference

Boston, Massachusetts, March 30 – April 3, 2003

The 1500 professionals in attendance of the Intermag Conference are primarily scientists, engineers and managers representing a diverse range of disciplines related to the physics and engineering applications of magnetism and magnetic material. Principal areas of interest cover both theory and applications, and include magnetic recording, magnetic thin films, magnetic computation, magnetism in the biological sciences, and microwave magnetism to name but a few.

Your contributions help offset the taxing expenditures involved with the screening process of papers and presentations, food and beverage and audiovisual. These contributions help keep down registration fees while not compromising the quality of the program. We thank you for your consideration and appreciate any monetary support you are able to contribute.
